## Profile

Creative thinking **Software Engineer** with **5 years of programming experience**, with deeper knowledge in designing and developing **full-stack web applications**. Confident communicator who has proven to work well in teams and to stay cheerful and calm in stressful situations. Fast learner and able to adapt to a changing environment. Looking for a **full-time position** as a **Full-Stack, Frontend** or **Backend Software Engineer** to continue my journey in the professional tech world.

## Work Experience

### Software Developer at Qualicen GmbH, Munich, Germany (Remote)

SEPTEMBER 2022 — PRESENT

- Working on an **analytics web app** (Java, Node.js) in an agile environment.

### Co-Founder and Developer at Flash AIO

JANUARY 2021 — PRESENT

- Co-Founded and developed a Software as a Service (SaaS) company that helps users secure highly sought-after collector's items.
- Developed **cross-platform Electron app** and worked on integrations for Discord and Stripe.
- Implemented a custom license key and user management solution.
- Acquired over 70 monthly paying customers.

### Intern at Thaltegos GmbH, Munich, Germany

SEPTEMBER 2022 — MARCH 2022

- Designed software architecture** and **developed** a new SaaS in the E-Mobility Sector (Node.js, React, GraphQL, SQL).
- Improved the quality of data of over 50k EV charging points by utilizing various **ML techniques through KNIME**.

### Freelancer, Munich, Germany

MAY 2019 — SEPTEMBER 2020

- Developed websites and web apps** for multiple clients.
- Handled client acquisition and communication.
